Collection of Information and Its Usage

Safexpress may collect personal information from you including your first and last name, contact number, email id, complete address and any other information, when you knowingly provide us with this information. We shall not retain any information for longer than it is required.

Usually, we require this information for the following purposes:

- To understand your needs and provide you with the more customized services
- To improve the content and services on the Safexpress' website and make it easier to use and more appropriate to its users
- To contact its users with updates to the website or for other marketing purposes
- To bill customers for the services they elect to use

We do not share, sell, transfer or disclose your personal data to any other organization or third party and will not do so in future, unless required by law or for the purpose of contract or you have given express consent to do so.

Certain areas of the website, including but not limited to "Customer Portal", "Tracking" require registration id or tracking id for access. Information obtained from registered users may also be used only for Safexpress marketing purposes.

Security of Information

This website is developed on Oracle ADF which runs on Web Logic server and uses AIX operating system which is very safe and secure. Also, we have taken reasonable steps to protect the 'loss', 'misuse' or 'alteration' of information collected. The data collected from the users resides behind a firewall with access restricted to authorize personnel based on their requirement for the data to provide efficient services to customers. We also maintain high level of confidentiality for the information collected.

Keeping your payment information secure

Safexpress protects your personal information, transaction data, credit, debit & prepaid card and internet banking information with industry-leading security.

Using our website or App for payments is easy, secure, and private. It's simple for you, and it's built with integrated security in both hardware and software, making it a safer way to pay than with your credit, debit & prepaid card and internet banking.

It has been designed to protect your personal information. To securely transmit your payment information when you pay in app and website, Safexpress receives your encrypted transaction and re-encrypts it with a developer-specific key before the transaction information is sent to the developer or payment processor. This key helps

ensure that only the app or website you're purchasing from can access your encrypted payment information. Safexpress doesn't collect any transaction information that can be tied back to you. Payment transactions are between you, the merchant (or developer for payments made within app and website), and your bank only.

Functionality of Cookies

Cookies are small files that websites put on your PC to store information about your preferences. **Cookies** can improve your **browsing** experience by allowing sites to remember your preferences or letting you avoid signing in each time you visit certain sites.

Cookies can help Safexpress to save the images of our Logistic Parks, content, fleet etc. It also helps us to save users data so that the website "remember and auto fill" the user ID when they login again on the website as and when required. Also, It ask the users who login on the customer portal to save the password by clicking on "remember the password" for future use if they are want to do so.
